

ONESOURCE Determination for Sage X3

Get sales tax right the first time, every time

Suitable for new business start-ups and large corporations alike, ONESOURCE® Determination seamlessly integrates with Sage X3 to improve operational efficiency and eliminate manual tasks. ONESOURCE Determination solves every part of the indirect tax puzzle — from certificate management to sales tax determination and rates, to signature-ready returns and e-filing with a single end-to-end solution.

ONESOURCE Determination for Sage X3 makes it easy to stay compliant with the ever-changing landscape of sales tax rates and rules to meet your company's tax obligations. ONESOURCE is a scalable solution which grows with your company and handles increased complexity, regardless of your company's geographic footprint.

Did you know?

Our world-class global support teams are available by phone and online 24/7, 365 days a year. We provide hands-on tax and technical support which goes beyond planning and implementation.

Why choose ONESOURCE Determination?

Confidence in compliance

Keep pace with the ever-changing regulatory and e-filing requirements

Scales to your business needs

Global coverage of 205 countries worldwide means your business can scale without limitations or needing to change providers

Extensive content

No matter which products you use, we've got you covered with over 12,000 supported product categories

Reduce audit risk

Have total peace of mind by reducing exposure to audit risk with fully automated processes and safely stored transactions

Predictable pricing

Competitive and transparent pricing with no unwanted surprises when it comes to your bill each year

Save time and costs

Eliminate manual processes and reduce overspending with automated sales and procurement transactions

Intuitive tools which are easy to use and manage

A centralized, fully integrated, and automated process for indirect tax enables your team to focus on high-value goals and initiatives. But how does the everyday usability of ONESOURCE Determination help you get there?

- Industry-leading server response time and system up-time
- Easy to use, modern graphical user interface
- A single login location for all your ONESOURCE products
- Transactions are stored safely and securely with certified compliance

Connect your ERP system to manage global transaction tax.
